Relebogile foundation research

1.Name of organisation

-Relebogile foundation

2.Brief history of the organisation:

-Relebogile foundation was founded by Bontle Moyo 4 years ago with a passion to empower her community and create opportunities for young people. The foundation has always been driven by the desire to make a meaningful difference in communities and the youth's life. The foundation has led various community outreach initiatives, including annual sanitary pad drives, school support programs, clothing donations, and educational support for vulnerable children and young people. Over the past few years, the foundation has successfully donated pads in the northwest province and aspires to expand its impact through partnerships and community-driven initiatives. (Relebogile Foundation,2025)

3.Missions:

-The foundations mission is to empower and uplift vulnerable communities by restoring dignity, promoting education and support youth development

-The foundations mission is to provide access to essential resources through sustainable community outreach initiatives and partnerships

-Promote menstrual health education to reduce stigma and promote wellbeing support

4.Visions:

-To build empowered, resilient and thriving communities where every child and young person has access to opportunities, essential resources and the support needed to reach their full potential

5.Target audience

-It primarily serves:

-Children and young people from disadvantaged backgrounds and communities

-Learners in school, particularly girls affected by period poverty

-Vulnerable families in need of educational and basic support

-Communities requiring empowerment and development initiatives

6.Specific goals for the website

-To raise awareness- for the target audience to be able to access help/assistance at an easy access instead of waiting for school visits

-Recruit donors and volunteers- so that donors get easy access to donate essentials and volunteers to volunteer their skills or time

7.Determine KPI

-Traffic sources-increasing more social media attention helps market the foundation better

-Donation flow success- more visitors on the website is critical for fundraisers

8. Analysis

-The foundation currently has no website it is only accessible to engage with through social media therefore i have identified that to increase its strong points it needs a website

9.Colour scheme

Color Scheme: Pink (to accommodate the target audience)

Typography: to not keep to formal and not use formal language on the home page to keep the target audience visit the page often

10.website layout

-index page(homepage): all navigations to different tabs on the website. Starting point to navigate the website. Has the mission statement visible

-About Us: it is the history of the organization, mission, vision, and values

-Contact: contact details and address

-Outreach: all past and coming outreaches to the community

-Support us: donation and volunteer

11.Timeline breakdown
