Rego housing

1.name of business-rego housing

2.brief history:

- the business started with the recognition that so many people are in need of trustworthy housing whether temporarily or for a life time.it started with the founder Regomoditswe Mogane helping members around her community with housing through word-of-mouth and small social media advertising

3.missions:

-being able to offer personilized hosing to cater all possible situations

-provide reliable housing

-the business biggest mission is ensuring that everyone using their services are covered with a good roof on their heads, and ensuring its safe and offer help to those that need housing

4.visions

-to become the most trusted housing business in the community and neighbouring communities

-to expand the business and move into bigger cities and work with bigger institutions to reach more people

5.target audience

-students/tourists-those for temporaly stay

-families/young professionals

-landlords & property owners-those willing to rent out their space through our business

6.specific goals for the website:

-to be able to be accessible to those in need of housing without hassle

-simplify housing shopping and viewings and being able to manage showcase listings

-increase visiblity and expand reach to attract more clients

-open more partnerships with landlords and bigger clients

7.determine KPI

-website traffic-significate number of visitors per month showing awareness and community reach

-tenant satisfaction-to show reliability and transparency to future clients

-inquiry rate-number of visitors/buyers per month

8.analysis

-the business currently runs offline, which indicates limited visibility, reach and competition disadvantage. I have also identified that the business has slow communication and its not a convinate for most client because they have to call the landlords or the founder for bookings and showings and by creating a website will be convinate to client from far to view the houses and book proper meetings.

9.colour scheme:blue and white-to represent warmth

Typography: use bold headings and diffrent fonts to include warmth of a home

10.milestone and timeline

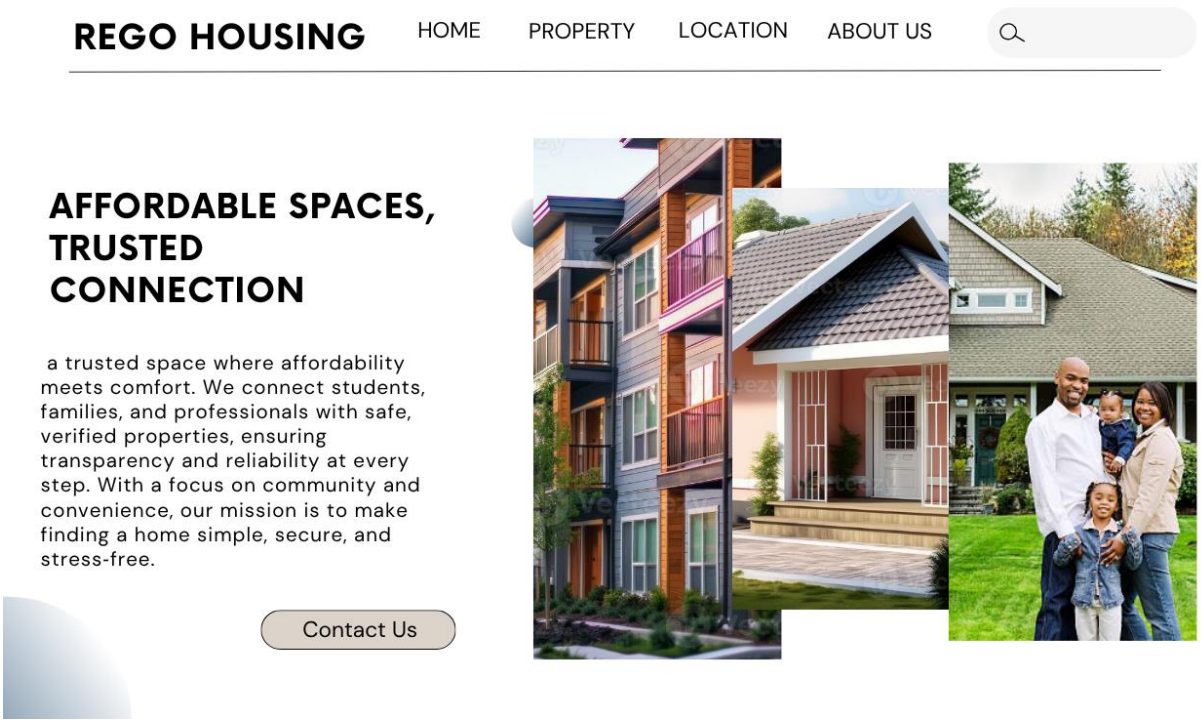

milestones	Time spent
Idea + research	Week 1
Two proposals	
Sitemap + wireframe	Week 2
Folder structure + HTML shell	
Content + navigation	Week 3
Testing + GitHub docs	

11. budget

Items	Estimated	Reason
Visual studio code	R0	Free code editor
GitHub	R0	Free Repository
Images	R0	Legal images from the business
internet/data	R499	1 month internet access
Domain name	R0	
Transport meeting costs	R200	Research purposes meetings
TOTAL	R699
